ABOUT US

Delta Pest Control provides professional pest control solutions for residential, commercial, and industrial markets with quality service, safety, and customer satisfaction in mind. We are a pest control company specialising in protecting your property before pests become a problem. We are licensed and equipped to offer a full range of pest control services. This can be anything from typical rodent, cockroach or termite control to specialised HACCP setups, including monitoring and control. All pesticides used are SABS approved and purchased through reputable pest control companies.

LEVEL 2 B-BBEE

Delta Pest Control is a Level 2 B-BBEE contributor and is committed to developing the skills of people from previously disadvantaged backgrounds through employment opportunities, development programmes and by assisting in community improvement projects.

ISO COMPLIANCE

Delta Pest Control adheres to ISO compliance standards by employing certified technicians, utilising eco-friendly practices, and conducting regular inspections to ensure effective and safe pest management solutions.

COMPANY VALUES

Vision

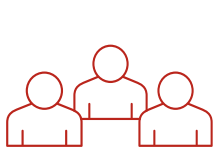

Delta Pest Control thrives to be the most preferred pest control company, providing integrated pest management solutions to both residential, commercial, and industrial properties that safeguard our environment and human health and provide peace of mind to our customers. Our vision is to create lasting partnerships, setting the standards for excellence in the industry throughout the regions.

Mission

Delta Pest Control is dedicated to maximising our clients' infrastructure investment returns by effectively managing and maintaining their assets. With expert pest control solutions, we protect and enhance the value of their properties. Our mission is to deliver exceptional service, ensuring a safe and pest-free environment for our clients' valuable investments.

Values

Delta Pest Control embraces the concept of 'Life is a journey, enjoy the trip,' where our values shape our business. We envision ourselves as a company committed to excellence, integrity, and customer satisfaction. With this mindset, we aim to revolutionise the pest control industry, providing innovative solutions that prioritise environmental sustainability and enhance the well-being of our clients and their communities.

TEAMWORK

We follow a teamwork approach, resulting in a congenial yet focused work environment.

RESPECT

We are an equal opportunity employer enabling staff to reach their full potential through training, exposure and mentorship.

INTEGRITY

We conduct our business with integrity and strive to build long-term relationships with our clients.

PASSION

We are passionate about our work and continuously strive to improve the quality of our service and solutions by developing innovative ways to serve our clients and improve our productivity.

PEST CONTROL SERVICES

We offer extensive integrated pest management for residential, commercial, and industrial properties:

- Rodent and Mice Control
- Crawling Insect Control
- Fly Inspect Control
- Ant Control
- Bed Bug Treatment
- Flea Control
- Termite Treatments
- Weed control
- Bird Control
- Bee and wasp control
- Relocation of cats and other urban wildlife
- Fumigation
- HACCP Programme

Each contract service is designed to fulfil the client's needs by ensuring affordable cost, quality, and reliable, efficient and effective services. Fast and responsive to client's needs. After each service, the client receives a Pest Control Treatment Report.

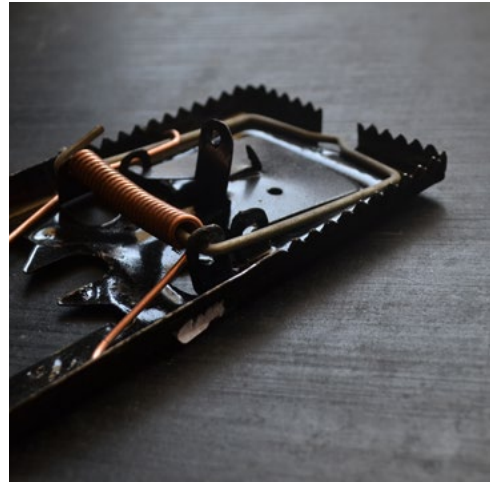

EXPERIENCED TEAM

Our attentiveness to our client's needs, combined with our experienced and professional pest control specialists, gives us the ability to take care of pest problems quickly and thoroughly. Furthermore, full supervision is provided on-site to ensure every effort is made to satisfy our client's pest control needs. Our pest control team is trained and certified and has the required knowledge in all facets of pest control. Our Pest Control Operators are fully registered and licensed with the Department of Agriculture Forestry & Fisheries and members of the Pest Control Industries Professional Council.

REPUBLIC OF SOUTH AFRICA

OUR INTEGRATED PEST MANAGEMENT PROCESS (IPM)

1. INCEPTION

Discuss with client their pest concerns and any queries.

2. INSPECTION OF FACILITY

Identify the pest(s) and evaluate the level of pest infestation.

3. IDENTIFICATION OF TREATMENT

Identify treatment plan to be implemented.

4. ACTION

Implement the appropriate treatment plan to control pest infestation.

5. RECOMMENDATION OF PREVENTIVE PLAN

Advise client on actions to be undertaken to prevent any future pest infestation.

6. EVALUATE

Evaluate the effectiveness of the pest control treatment plan on the pest infestation.

SAFETY TREATMENT

We strive to use the safest and least toxic treatment available that is still effective against targeted pests, taking into consideration the safety of our clients and causing as little damage to the environment as possible. Using the latest integrated pest control techniques, we are able to eradicate all infestations while reducing the risks to our team, our clients and the environment. These services include the use of gels, baits, residual sprays, glue boards, ultraviolet attractants and even physical barriers.

Using the most comprehensive pest control programmes available, our experienced and professional pest control specialists can easily take care of our client's pest problems. Our various programmes include:

- Initial Service
- Follow-up Service
- Quarterly Service
- Power Spray Programme
- Termite Treatments

Job cards are issued after every pest control service, which include a scope of the service provided, site updates and further recommendations.
